

## Family owned and operated

Dad developed and perfected the original recipe. Now sons David, along with his wife Lydia, and Henry and his wife Sarah continue the tradition of soap making. **Our soap is hand made here in Lancaster County PA.**

Our bar soap ingredients start with over 1.5 oz of goat milk. After a natural curing process, the bars end up slightly over 3oz. **Finally, Mom and the girls hand pack each bar in muslin cloth to allow for further breathing.**

Recently we have introduced a line of liquid soaps. These soaps also have the high quality attributes that Misty Creek is committed to offering in their goods.

We hope you enjoy our family's products considerably.

Sincerely, The Folks at Misty Creek
